

PRACTICE MADE PERFECT!

Your clinic needs are answered with one simple, turn-key software solution.

Your demanding practice is about giving your patients all your care and attention. The paperwork and scheduling only makes it cumbersome.

InnoCare will share the load, leaving you more time to focus on your practice and medicine.

Introducing InnoCare, a unique Clinic Management Software that helps you first-hand to breeze through your clinical practice. Developed by world-class software developers and engineers in collaboration with top of the line practicing specialist doctors, InnoCare empowers you to be in complete control of every aspect of your practice.

BENEFITS

- Enhance productivity
- Boost efficiency

Big or small, **InnoCare** is configured to give you the smart edge in managing your clinical practice the innovative way. Using cutting-edge technology backed by real-time cloud computing, **InnoCare** eliminates the need for repetitive tasks, cumbersome paperwork, and scheduling hassles.

EMR: THE ONLY WAY FORWARD

The only way forward for the medical fraternity is EMR (Electronic Medical Records). **INNOVOCARE** keeps EMR of patients visiting your clinic enabling you to run analyses to sharpen your medical insight.

MULTILINGUAL: SPEAK THE TONGUE

One of **InnoCare's** greatest strength is its ability to disseminate prescription instructions in 20 Indian languages. With the language barrier removed, it is easier for patients to follow the instructions in vernacular.

ANYTIME, ANYWHERE: CLOUD-BASED

Unique data cloud gives you access to your data anytime, anywhere.

PORTABILITY: DATA ON THE GO

InnoCare's mobile computing aspect and cross-platform availability ensures high performance over Desktop, Android, and iOS. Work from any mobile device, anytime, from anywhere without an internet connection. Synchronize data with the **InnoCare** cloud once connected.

PRESCRIPTIONS: IN A JIFFY

With FDA regulations requiring prescriptions to carry generic along with brand names and in capital letters, **InnoCare** simplifies writing prescriptions. Its unique prescription manager allows you the comfort of simply searching the database by brand names and printing the generic as well as brand name in the final prescription! All of this at the click of a button.

SOME ADDITIONAL BENEFITS

1. No capital expenditure on expensive hardware like servers. All you need is an internet enabled desktop/laptop and you are set.
2. Easy to use interface: Hassle free operation from Firefox/Chrome/iExplorer browsers.
3. No installation or data backup worries.
4. Plug-and-Play software: Start using software within hours if you want to use the existing templates.

FEATURES

Innovocare is a user-friendly, feature-packed solution that offers superior performance and reliability.

FRONT OFFICE

1. Schedule clinic-wise, doctor wise, specialty-wise appointments per time slot.
2. Update incoming patient status with a single click 'Check-in' process.
